GATED MYOCARDIAL PERFUSION SPECT (ADENOSINE)

Patient: _____

An appointment has been made for you at CENTRAL FLORIDA HEART CENTER, on:

DAY: _____ DATE: _____ TIME: _____

for your Gated Myocardial Perfusion SPECT with Adenosine.

Please do not have anything to eat or drink (except water) on the morning of your test.

If you are currently taking medication, take it the morning of your test except for medicines containing Theophylline, which should be stopped 48 hours before the test. Theophylline medications are used for respiratory problems.

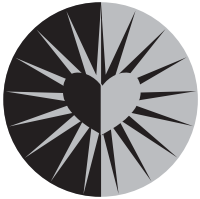

In preparation of the test, women are requested to wear a brassiere without an underwire.

These instructions have been designed to make your Gated Myocardial Perfusion SPECT with Adenosine a pleasant experience, while at the same time assisting the technologist and physician supervising the test to provide us with the best possible medical information.

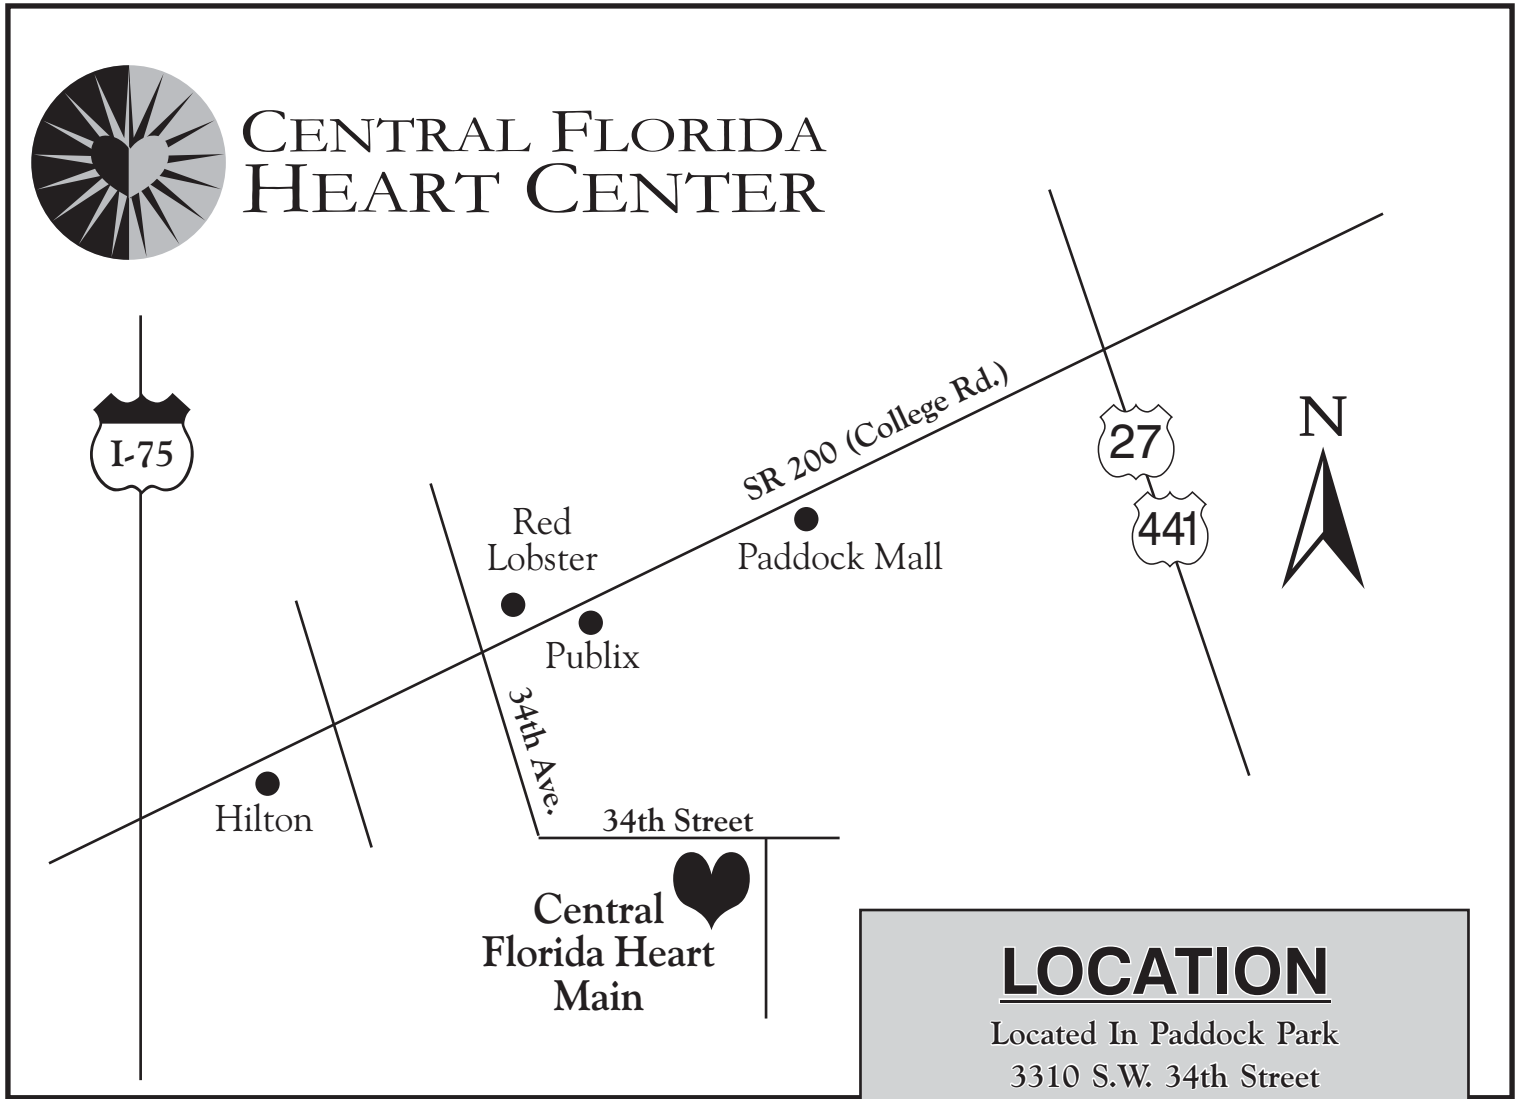

If you have any questions, please contact the CENTRAL FLORIDA HEART CENTER NUCLEAR STRESS LAB.

NOTICE: This procedure takes approximately 2½ to 3 hours to complete. There is also a dose of medication ordered specifically for you. If you find that you cannot keep this appointment, please notify the office at least 24 hours in advance or the medication ordered for you may be billed to you at your expense. Thank You.

If you have any questions regarding the fees associated with this test, please feel free to contact the billing department at 873-0707.
